

Bharat GST Champ

GST का पूरा काम BUSY के अंदर: मिलान, छूटे बिल, रिपोर्ट

GST reconciliation and missing-bill posting in BUSY

No portal download needed: Bharat GST Champ reads the **GSTR-2A, 2B and GSTR-1** that **BUSY** already **downloaded**, matches them with your books, **posts the missing purchase, sale and RCM bills** after you confirm, and runs a **ready-to-file check** before every return.

Runs inside BUSY 21 (Add-Ons menu)

2A, 2B & GSTR-1

Posts missing bills

Ready-to-file check (F3)

GST reports suite

Lite & AI editions, one licence

At a glance

- GSTR-2A / 2B vs purchases, GSTR-1 vs sales
- Ready-to-file check and GSTR-1 / 3B JSON
- Missing bills posted into BUSY after you confirm
- Reports, notice risk score and CA audit pack

What Bharat GST Champ does

2A / 2B vs your purchases

Every bill of the GSTR-2A and 2B that BUSY downloaded is matched with your purchase vouchers: pending, posted or failed, bill-wise and party-wise.

Posts what is missing

Missing purchase, return and RCM bills are posted into BUSY after you confirm, creating missing parties and items on the way.

GSTR-1 vs sales

GSTR-1 downloaded in BUSY (or the portal file) is compared with your sales, and missing sales can be posted too.

Ready to file (F3)

One click before GSTR-1 / 3B: red, amber, green list of pending challans, missing IRN, wrong HSN, cancelled GSTINs, duplicate invoice numbers and books vs return gaps.

GST reports suite (F11)

Reconciliations, ITC, 180-day list, set-off, interest and late fee, checks: in Excel or HTML, each with a 'how calculated' sheet.

Cross-match everything

GSTR-1 vs 3B vs 2A vs 2B vs books vs trading account, amount and GST, month-wise or date-wise.

GSTR-1 and 3B JSON

Make the GSTR-1 and GSTR-3B JSON from BUSY for upload on the GST portal, checked before saving.

Notice risk, month lock, CA pack

Notice risk score, changes made after filing, one-Excel CA / audit pack and supplier-wise pending ITC statements.

More features

AI edition (optional)

Offline smart error finder learns your company's normal pattern and flags wrong GST rates, duplicate bills and unusual entries before you file. Nothing leaves your PC.

Multi-user, Access & SQL

Works on a LAN with both BUSY Access and SQL Server companies; settings show the data path or SQL server in use.

How it works

1

Download returns in BUSY

2A, 2B and GSTR-1, as you already do for GST.

2

Open from BUSY

Add-Ons > Bharat GST Champ; the open company and year are used.

3

Review

Pending bills party-wise, ready-to-file list, reports.

4

Post & file

Confirm the missing bills, make the JSON, file with confidence.

Key facts

Version	v2.0.5 · 2026-10-18
Works on	Windows 10, Windows 11 with BUSY 21
Start	15-day free demo
Status	Ready to download

Prices on request; 18% GST extra at final billing. Order on WhatsApp, pay by UPI, setup and training help included.

Questions

Do I need to download anything from the GST portal?

No. The tool uses the 2A, 2B and GSTR-1 data that BUSY downloads and saves in the company folder.

Lite or AI edition?

Same licence for both. The Lite edition is for older PCs; the AI edition adds the offline smart error finder. Installing one replaces the other.

Will it change my BUSY data on its own?

No. Bills are posted only after you confirm. Take a BUSY backup and try the first posting on a copy of the company.

Is this the old 2A Bill Import?

Yes, rebuilt and renamed Bharat GST Champ, with 2B, GSTR-1, reports and the ready-to-file check added. The Setup replaces the old edition and keeps its settings.
